

Photography Policy

[THINK Association](#)

At the THINK Conference photos will be taken by the THINK organizational team. These photos will be used for the THINK Website. They will also be sent out to everybody attending the conference. The receivers of the photos agree to only use them for private use and publish them in any form online or offline only when the consent of everybody depicted is given.

Privately taken photos at the THINK Conference are requested to adhere to the same standards of publishing online or offline as outlined above.

If an attendee of the THINK Conference does not want to be photographed or does not want their photos to be published in any way, they can make this known with the official photographers and their wishes will be respected.
